

# OBERON

in operation

## OBERON SOLAR + STORAGE FACILITY HIGHLIGHTS

Located in Riverside County, California, Intersect Power's Oberon Solar + Storage Facility generates **679 MWp of solar power**. Built with union labor, American-made solar panels, batteries and steel piles, Oberon features **1 GWh of co-located storage** and produces reliable, low-cost energy equivalent to powering approximately **208,000 homes**. Oberon was the first project to achieve operation through the streamlined approach under the Bureau of Land Management (BLM) Desert Renewable Energy Conservation Plan.

**OBERON**  
AT-A-GLANCE

> **1,465,170**  
solar panels

**679 MWp**  
of reliable solar power

**4-Hour**  
storage

- **More than 930 union jobs** created during construction
- **7 operations jobs** created
- **208,000 homes** powered
- **More than \$30m direct investment** in Riverside County community
- Utilizes domestically manufactured materials, including:
  - » US steel piles – Texas
  - » Tesla batteries – California
  - » First Solar panels – Ohio
